## THE FINIAL COMPANY OUTDOOR HARDWARE “PRODUCT CARE”

Unlike indoor drapery hardware the outdoor hardware does require periodic maintenance.

It is important to note that all nicks, chips and scratches must be repaired immediately. All scratches occurring during installation must be repaired at that time.

In addition, twice a year it is important to clean and inspect the outdoor hardware for scratches or wear patterns that could expose the metal and result in rusting. If such areas are discovered then apply the paint finish sent with the order. When dry apply the clear protective sealant also provided.
