Radio Technology Somfy® (RTS)

RTS allows you to experience motorization your way. Control your motorized rolling shutter with a single device or a combination. Choose from hand-held remotes, wireless wall switches, table top controls, timers or app control from a tablet or smartphone.

App Control

Harness the power of your favorite mobile device and upgrade to a convenient and relevant control option for Somfy-powered solutions.

Remote Access

Activate Somfy-powered applications even when you're away from home with a single tap to maximize the many lifestyle benefits they provide such as energy savings, UV protection and privacy.

Timed Events

Schedule scenes to automate motorized applications on a seven day schedule so you can effortlessly enjoy their many benefits.

On-screen Setup Wizard

Intuitive installation and setup allows you to enjoy your myLink experience in a short few minutes.

Flexible

Choose the best way to control your motorized applications with options such as individual control, group control, and more.

Compatible

Controls all Radio Technology Somfy® RTS products including blinds, shades, curtains, screens, awnings, and rolling shutters as well as RTS enabled lighting devices.

Convenience

Now it's simple to adjust large, tall and hard-to-reach window coverings. Somfy's expertly designed motors offer ease of operation, allowing you to effortlessly and conveniently control the light, and view with the touch of a button.

Perfect for rooms with many windows, you can easily lift multiple shades with quiet precision - positioning them exactly where you want.

Enjoy and relax knowing that a programmed timer provides enhanced security, creating that "lived in look" even when you are away.

Control Flexibility

Somfy offers a wide variety of controls to suit your lifestyle and personal preference. You may choose from a broad range of colors and options such as hand-held remotes, wireless wall switches, table top controls and automatic timers. Somfy's Radio Technology Somfy® (RTS) options feature enhanced control with no line of site required. This extra convenience eliminates the need to point or aim the control at your motorized window coverings. Additionally, infrared controls are also available.

Comfort

Enjoy greater comfort and energy savings as you effortlessly eliminate harsh glare when viewing television and computer screens, while efficiently controlling heat gain and loss.

Too much sunlight is harmful to home furnishings, floor coverings and artwork. Motorized window coverings can be automatically lowered throughout the day to accommodate the setting sun, block harmful UV rays, and protect your valuable interiors.

Offered in a variety of styles to suit your décor, select a window covering based on having an outside view, maintaining privacy, or anything in between. The possibilities are endless.

Control

Take control of your lighting environment and create the perfect atmosphere in every room of your home - enjoy the sunlight and view, or create a more restful, relaxing environment with total privacy.

Motorized window coverings powered by Somfy can be instantly adjusted to your changing activities or the changing sunlight.

Discover the ease of use and the time saving benefits of changing any room's ambiance with the simple push of a button.

TaHomA®, Somfy's total home automation solution, is also available to control all of your motorized products as well as your thermostat and lighting. Maximize energy efficiency and effortlessly control your home from your computer, smartphone or tablet for convenient control both at home and away.
